“Rich Heart”

**6A2-5 Chheng Neang Heng (Heng Anderson)’s
Guiding Philosophy Unites Global Community**

“What’s your plan for the fall, winter, and the future? How are you staying engaged and active in expanding your Enagic dream and growing your team? Take a moment to remember what worked.”

**Hironari Ohshiro
Enagic Founder and CEO**

Message from Mr. Ohshiro

People Don't Change? Don't Believe That

You may have heard the old adage that people don't change. That hasn't been my experience, but it isn't easy. To truly change or improve your circumstances, people must commit to making regular efforts over an extended time period. That's certainly true for Independent Distributors.

Continuing what you're doing, the way you've been doing it for years, will hardly ever yield better results. It helps to get outside perspectives from people you respect who have led varied lives and taken different approaches. Find family, friends or team members that will support your goals, generate new ideas that you haven't thought of before, and help to hold you accountable.

If you make a concerted effort to change your approach and improve your True Health in meaningful ways, you'll then be in a position to help other people who are open to change.

Independent Distributors create positive spirals that change lives while inspiring other members of our ever growing global community. Change is the only constant. Be a leader with a strong, consistent vision who can adapt to inevitable changes without losing focus on the big picture.

Now is the time to realize compassion's magic and make a positive impact on other people in your lives. It all starts with one person, you, before passing this spark on to others. This giving philosophy is Enagic's foundation and remains a powerful motivational force.

When I look back at Enagic's history, it fills me with gratitude that so many distributors have overcome their hardships to reach today's success. Thanks to your dedication and the efforts by thousands of people across the globe, we continue to spread the message of True Health.

Together, let's keep changing the world (and drinking Kangen Water®).

Hironari Ohshiro
Enagic Founder and CEO

6A2-5 Chheng Neang Heng (Heng Anderson)

Change Your Life Story

Chheng Neang Heng's (Heng Anderson) success story is a testament to her resilience and relentless pursuit of excellence. She previously appeared in E-Friends in January 2022 and joined husband/partner David Anderson on the cover in September 2023. She's been a trailblazer for Cambodian Independent Distributors, earning her country's first 6A2-3, 6A2-4, and now 6A2-5 ranks.

Since becoming an Independent Distributor in 2019, Heng has continued to evolve, enabling her team to collectively thrive far beyond her home base: Phnom Penh, Cambodia. "I once focused on individual desire, she says. "I now prioritize community-building. We've embraced digital tools like Zoom for global mentorship and social media to share our vision, yet we maintain a face-to-face foundation to build the trust that fuels our consistent retention and growth."

Heng has learned many valuable lessons from her downline over the years. Three stand out.

- **The Power of Collective Effort:** "Reaching the rank of 6A2-5 taught me that the highest achievements are never solo victories, but the result of a synchronized team."

- **Integrity is Non-Negotiable:** “Observing the long-term stability of those who follow the rules versus those who take shortcuts has reinforced my commitment to ethics.”
- **Resilience through Mission:** “Seeing team members bounce back from disappointment by rekindling their mission has shown me that a united desire to serve the community makes us an unbreakable family.”

Heng’s perspective has shifted. “Initially, success was about financial volume and the speed of my own progression,” she says. “Today, influenced by mentors like 6A12-8 Romi Verdera, 6A15-7 Cynthia Briganti, 6A9-6 Jayvee Pacifico, and 6A16-5 Daniel Dimacale, I view success through the lens of service. It is the ‘Christian principle’ of giving to receive. True fulfillment now comes from watching my downline elevate themselves—becoming better versions of themselves and building ethical, health-conscious communities that prioritize people over profit.”

From her beginnings in rural Cambodia, Heng embraced a “Rich Heart” philosophy to prioritize education and self-reliance. Heng persevered to study finance, enjoy a distinguished career in the corporate world, and become a preeminent figure in global direct sales with Enagic.

Before transitioning into entrepreneurship, Heng established a formidable reputation within the Japanese banking sector. As a Department Manager and consistent “Top Target Performer,” she honed the discipline and strategic precision that define her business approach today. This high-level corporate experience, followed by a successful tenure in the insurance industry, provided the perfect springboard for her leadership as an Independent Distributor with Enagic, where her entry signaled a transformative period of growth for the Cambodian market.

Heng and the partner in her high-performance organization, husband David, have 3 core pillars:

- **Educational Empowerment:** Heng and David are pioneers in professional development, facilitating international delegations to the Essential Enagic Workshop EEW Cambodia (with thanks to Amos Sia and Cora Loh - EEW Malaysia) and establishing comprehensive training programs in Phnom Penh. By providing localized resources, they ensure their team has the tools necessary for global competitiveness.

- **Operational Precision:** She maintains organizational momentum through a sophisticated schedule of strategy sessions and large-scale conventions. These events serve as vital platforms for professional enthusiasm and collective growth.

- **Sustainable Strategy:** Heng is a staunch advocate for professional standards. She champions a business model focused on promoting healthy lifestyle habits and overall wellness.

“Rich Heart” is the guiding principle for Heng’s leadership that measures the quality of service to others. Inspired by global thought leaders, this philosophy centers on forgiveness, unity, and a steadfast commitment to customer support. For Heng, the Enagic lifestyle is not merely a business venture, but a greater mission to foster a community built on mutual respect and shared prosperity.

“Independent Distributors are not guaranteed any level of income. Most distributors earn modest supplemental income or less. Please review the Enagic Earnings Disclosure Statement.”

Blue Boy's Story

By 6A2-2 Megan O'Neill

Blue Boy has been part of my life since he was just four months old. I raised him from a baby. Today, at 19 years old, he's still my rodeo partner. We compete in barrel racing together, and every time we walk into the alley, he gives me everything he has. He's more than just a horse to me — he's family. I love him like one of my own kids. As he's gotten older, I've become even more protective of him. My biggest priority has never been winning. It's always been making sure he's comfortable, healthy, and enjoying the job he loves.

BEFORE UKON

Like many performance horses as they age, I started noticing changes.

- His recovery after runs wasn't as quick.
- He seemed stiffer after hauling.
- I found myself wondering if he was hurting more than he let me know.

I questioned whether it was fair to keep asking him to compete simply because he was getting older. The truth is, if I believed running barrels caused him pain, I would have retired him.

WHY I STARTED BLUE BOY ON UKON

A little over two years ago, I decided to add turmeric to Blue Boy's daily routine. Not all turmeric supplements are created equal. The one I use, Ukon, is made from one of the purest forms available. That quality is one of the reasons I believe we've seen such incredible results.

Every morning, Blue Boy receives:

- His regular grain
- Five Ukon capsules mixed into his feed
- Plenty of fresh water

According to Megan, after incorporating Ukon into Blue Boy's daily routine, she personally observed the following:

- *Maintains an active lifestyle*
- *Continues to enjoy competing*
- *Participates in daily activities*
- *Drinks water regularly*
- *Maintains a healthy-looking coat*
- *Maintains an overall pleasing appearance*
- *Remains an important rodeo team member*

The statements above reflect Megan O'Neill's personal observations regarding her horse, Blue Boy. Individual experiences may vary. These observations have not been independently verified and are not intended to represent typical or guaranteed results. Always consult a qualified veterinarian regarding your horse's care.

Perhaps the biggest difference is watching a 19-year-old horse compete alongside horses half his age — and not just keep up with them, but often outrun them. To me, that's incredible.

One reason I continue using Ukon is because it's a natural option that supports comfort and recovery. For Blue Boy, it's allowed me to move away from products I didn't want to rely on long-term. Every horse is different, and I always recommend working with your veterinarian when making changes to your horse's care. I'm simply sharing what has worked for mine.

Our experience with Kangen Water® is another part of Blue Boy's routine that I believe has made a difference. Hydration is one of the most important parts of caring for a performance horse, especially one that spends time hauling and competing. I've come to appreciate how Kangen Water® has become part of our hydration routine and daily care.

Blue Boy is healthy, happy, and still loves his job. Every time we make a run, I'm reminded why I continue doing everything I can to support him naturally. This is simply our story. It's what has worked for us. I hope sharing it helps another horse owner who's looking for ways to support the horse they love.

Then and Now

3 months on this supplement

Turkey Distributor Profile

Ziya Kaplan
6A2-3

6A2-3 Ziya Kaplan was born in Osmaniye and currently lives in Gaziantep, a Turkish province on the Silk Road that may be best known for copperware, pistachios, and baklava.

Ziya first learned about Kangen Water® in August 2021 from 6A2 Eyyüb Yılmaz, a fellow doctor and friend who explained the benefits. “First I incorporated it into my own life, then I recommended it to my loved ones,” Ziya says. “As the number of people who benefited increased, I began to devote more time to it.”

Meeting with 6A2-4 Simon Loh and 6A2-5 Sia Ming Way about Enagic’s patented 8-point compensation plan and business strategy was another pivotal moment in his development. This motivated Ziya to help found the Alpha Team and build a robust distributor network.

“The commission structure was simple and easy to understand,” Ziya says. “I saw great potential in the idea that I could set up my business anywhere in the world.”

Ziya is an experienced doctor who currently provides healthy living consultations. Being a doctor has been useful to him as an Independent Distributor when explaining Kangen Water®’s potential benefits to prospects. He began sales outreach in his community, selling two Kangen Water® ionizers to fellow doctors and friends: Dr. Pınar Erdil and Dr. Yasin Sert.

Ziya put systems in place to cultivate other effective leaders in his downline. He says, “With Alpha Team, we have established an ecosystem for our distributors.” His methods:

- “We train our new distributors through training sessions, presentations, and camps.”
- “We enter into training agreements with professional training coaches.”

Ziya has a clear vision for how Alpha Team reached their current ranks and what the future will look like. “In my first five years, I achieved 6A2-3 status by bringing True Health to the lives of hundreds of people through Kangen Water®,” he says. “In the second five years, by bringing True Health to the lives of thousands of people through Kangen Water®, we plan to produce dozens of 6A2-3s from our team. In the third five years, by bringing True Health to the lives of tens of thousands of people through Kangen Water®, we plan to produce hundreds of 6A2-3s from our team.” They started in Turkey, but envision a global business.

Independent Distributors are not guaranteed any level of income. Most distributors earn modest supplemental income or less. Please review the Enagic Earnings Disclosure Statement at www.enagic.com for detailed, current information.

India Distributor Profile

Kaushikkumar Rameshbhai Desai

6A2

6A2 Kaushikkumar Rameshbhai Desai grew up in Ahmedabad and still lives in this UNESCO World Heritage City. In addition to architectural marvels like the Bhadra Citadel, Sidi Saiyyed Mosque, and Hutheesing Jain Temple, Ahmedabad is also well known for being Mahatma Gandhi's headquarters for India's freedom movement from 1915-1930. Kaushikkumar has found inspiration in many forms over the years in Gujarat's largest city, including Kangen Water®.

Kaushikkumar learned about Enagic in 2022 from 6A2-3 CA Nirav Dalsaniya and 6A Dhruvik Parekh. He initially purchased a Kangen Water® ionizer in a “purely product-driven” decision.

“Over the next six months, I gradually developed a deeper understanding of the business model and its long-term potential,” Kaushikkumar says.

In 2023, he became an Independent Distributor. Several factors influenced his decision:

1. “The combination of True Health and a sustainable business model”
2. “A unique opportunity where you are not just building income, but also creating awareness about better hydration and lifestyle”
3. “The simplicity of the system”
4. The global presence”
5. The potential for long-term residual income”
6. “A platform where purpose and profession come together”

Independent Distribution quickly became a family business for Kaushikkumar. He says, “Today, both my mother, 6A Kantaben Rameshbhai Desai, and my wife, 6A NAME TBD, are part of this journey, which makes it even more meaningful.”

Kaushikkumar became involved in networking marketing companies beginning in 2014. “While I gained valuable experience, I did not achieve the level of success I was aiming for,” he says.

Kaushikkumar’s approach clicked after discovering Enagic. “I found the right platform that aligned with my vision,” he says. “Enagic has significantly transformed both my professional journey and my outlook on business.”

“Additionally, my prior experience in network marketing has strengthened my communication skills, presentation abilities, and stage confidence,” Kaushikkumar says. Those abilities all “play a crucial role in educating and leading a team effectively.”

“Identifying serious and value-driven individuals early on helped me build a solid base,” Kaushikkumar says. He credits four key individuals who helped him build the foundation for a successful team: 5A Umesh Panchal, 5A Bhartiben Kathiriya, 4A Babubhai Pate, and 4A Pareshkumar Desai. He adds, “We continue to grow as a strong and committed team.”

To expand business, Kaushikkumar has been focused on hosting “consistent events, structured training programs, and leadership development initiatives” He says, “We are committed to making each year more impactful by strengthening our systems and team culture.”

To increase chances for success, Kaushikkumar and his team developed a “structured system and culture that encourages independence, consistency, and growth.” Key initiatives include:

- SANKALP – Monthly guest introduction event
- OTP (One Day Training Program) – Monthly skill-building session
- RTP (Residential Training Program) – Conducted every six months
- Weekly Training – Every Friday night
- Weekly Reporting – Every Saturday morning at 6:30 a.m.

In addition, Kaushikkumar and his team organize other meet-ups that help them “stay connected, aligned, and continuously growing as a team.”

- “Machine inauguration ceremonies”
- “Group trips and team-building activities”
- “Leadership development programs”
- Sales mastery sessions”

Kaushikkumar is working to reach a 6A2-3 rank by February 2028 while uplifting his downline. He says, “My goal is to grow alongside my team and support my leaders in achieving long-term success.”

Developing Sustainable, High-Quality Ukon Products By Carefully Considering Ukon Diversity

The genus *Curcuma*, which belongs to the ginger family (*Zingiberaceae*), comprises more than 130 species. Ukon (*Curcuma longa*) is a species that includes over 70 different strains and cultivars found around the world.

The concentration and composition of Ukon's active compounds vary depending on the species and cultivar. Furthermore, even within the same species, strain, or cultivar, climatic conditions, soil characteristics, and cultivation practices can influence the quality and content of these compounds. The quality and composition of these compounds may also change during processing, manufacturing, packaging, and storage. Producers must carefully consider all these factors when developing sustainable, high-quality Ukon products.

Even within Okinawa's main island, soil composition and characteristics vary significantly from region to region. In this regard, we aim to work closely with Okinawa Kangen Foods to conduct ongoing research and share scientific findings with local farmers, helping to advance cultivation techniques.

Okinawa Kangen Foods utilizes Ukon cultivated in Yambaru's fertile lands. The northern region of Okinawa Main Island is recognized as a UNESCO World Heritage Site.

Among these growing areas, we seek to carefully select the most fertile land and implement appropriate cultivation management practices to maximize the soil's natural potential. Through these efforts, we strive to achieve Ukon's highest cultivation standards and deliver exceptional turmeric products.

"This information is provided for educational purposes only and is not intended to diagnose, treat, cure, or prevent any disease."

Ukon Factory News: Okinawa Kangen Foods Operates a Food Truck at the 4th Enagic Cup Kokusai Street Junior Ekiden Relay Race

On February 8, Okinawa Kangen Foods operated a food truck at the 4th Enagic Cup Kokusai Street Junior Ekiden Relay Race, held along Kokusai Street, Okinawa's premier downtown and shopping district.

Under the "Ukon Village Sedake (Ukon no Sato Sedake)" banner, we proudly served special menu items featuring our signature turmeric and Kangen Beef.

The Kangen Ukon Burger and Kangen Wagyu Taco Rice were particularly well received, delighting many spectators and supporters who came to cheer on the young runners.

Despite the cold weather, the children's determination and sincere efforts as they passed the relay sash from one runner to the next inspired and moved all of us. We were truly honored to share such a vibrant and energetic day with community members and to participate in an event that supports the next generation.

Okinawa Kangen Foods will continue to actively promote Ukon's benefits and appeal while participating in local community events. Through these efforts, we remain committed to contributing to our home region's continued growth and vitality.

ENAGIC[®]
FOUNDATION

At the heart of the Enagic Foundation is the Enagic Spirit: Compassion, love, and generosity.

Inspired by Mr. Ohshiro's belief that we can make the world better by helping one another; the Foundation supports humanitarian, educational, environmental, and disaster relief efforts around the globe.

With the support of the Enagic Family, we aim to bring hope, provide support to those in need, and inspire acts of kindness that create lasting positive change.
